RESEARCH AND REPORTS
207 Suppression of Antimicrobial Resistance in MRSA Using CRISPR-dCas9
Karissa Wang, Matthew Nicholaou
214 Cinnamaldehyde Inhibits MRSA Biofilm Formation and Reduces Cell Viability
Marco W. Rossi, Rita M. Heuertz

CLINICAL PRACTICE
219 Evaluating the Benefits of an Updated Blood Ordering Process
Alana E. Sutherland

EDUCATION
224 Introducing Interprofessional Education to BSN and CLS Students Using a Simulated Healthcare Setting
Kristina Jackson Behan, Jill Van Der Like
228 Promoting Patient Safety Through Interprofessional Education Simulation
Katie Cavnar, Jill Van Der Like, Lela Hobby-Burns
233 Pride and Prejudice and Learning: An Interprofessional Experience with CLS and Nursing Students
Kristina Jackson Behan, Kristen Coffey, Michele Promo, Teresa Brooks, Jill Van Der Like
240 Correlation of University Comprehensive and National Certification Exam Scores for Medical Laboratory Science Students
Sarah B. Pelton

FOCUS: DISASTER PREPAREDNESS IN THE BLOOD BANK
247 Prepared for Anything: The Importance of a Safe and Available Blood Supply during Disasters and other Critical Events
Laurie Gillard
250 Disaster Preparedness in the Blood Bank
Alyse N. Gschwender, Laurie Gillard
258 Managing Massive Transfusions in diverse Patient Populations in a Non-Metropolitan Area
Shauna M.M. Sturgill, Laurie Gillard
263 Pathogen Reduction in Platelets: A Review of the Proposed Draft Guidance
Jocelyn Tracy
