RESEARCH AND REPORTS

207  Suppression of Antimicrobial Resistance in MRSA Using CRISPR-dCas9
      Karissa Wang, Matthew Nicholaou

214  Cinnamaldehyde Inhibits MRSA Biofilm Formation and Reduces Cell Viability
      Marco W. Rossi, Rita M. Heuertz

CLINICAL PRACTICE

219  Evaluating the Benefits of an Updated Blood Ordering Process
      Alana E. Sutherland

EDUCATION

224  Introducing Interprofessional Education to BSN and CLS Students Using a Simulated
      Healthcare Setting
      Kristina Jackson Behan, Jill Van Der Like

228  Promoting Patient Safety Through Interprofessional Education Simulation
      Katie Cavnar, Jill Van Der Like, Lela Hobby-Burns

233  Pride and Prejudice and Learning: An Interprofessional Experience with CLS and Nursing
      Students
      Kristina Jackson Behan, Kristen Coffey, Michele Promo, Teresa Brooks, Jill Van Der Like

240  Correlation of University Comprehensive and National Certification Exam Scores for Medical
      Laboratory Science Students
      Sarah B. Pelton

FOCUS: DISASTER PREPAREDNESS IN THE BLOOD BANK

247  Prepared for Anything: The Importance of a Safe and Available Blood Supply during Disasters
      and other Critical Events
      Laurie Gillard

250  Disaster Preparedness in the Blood Bank
      Alyse N. Gschwender, Laurie Gillard

258  Managing Massive Transfusions in diverse Patient Populations in a Non-Metropolitan Area
      Shauna M.M. Sturgill, Laurie Gillard

263  Pathogen Reduction in Platelets: A Review of the Proposed Draft Guidance
      Jocelyn Tracy

267  CONTINUING EDUCATION QUESTIONS

270  2017 ANNUAL INDEX
