RESEARCH AND REPORTS

207  Suppression of Antimicrobial Resistance in MRSA Using CRISPR-dCas9  
      Karissa Wang, Matthew Nicholaou

214  Cinnamaldehyde Inhibits MRSA Biofilm Formation and Reduces Cell Viability  
      Marco W. Rossi, Rita M. Heuertz

CLINICAL PRACTICE

219  Evaluating the Benefits of an Updated Blood Ordering Process  
      Alana E. Sutherland

EDUCATION

224  Introducing Interprofessional Education to BSN and CLS Students Using a Simulated Healthcare Setting  
      Kristina Jackson Behan, Jill Van Der Like

228  Promoting Patient Safety Through Interprofessional Education Simulation  
      Katie Cavnar, Jill Van Der Like, Lela Hobby-Burns

233  Pride and Prejudice and Learning: An Interprofessional Experience with CLS and Nursing Students  
      Kristina Jackson Behan, Kristen Coffey, Michele Promo, Teresa Brooks, Jill Van Der Like

240  Correlation of University Comprehensive and National Certification Exam Scores for Medical Laboratory Science Students  
      Sarah B. Pelton

FOCUS: DISASTER PREPAREDNESS IN THE BLOOD BANK

247  Prepared for Anything: The Importance of a Safe and Available Blood Supply during Disasters and other Critical Events  
      Laurie Gillard

250  Disaster Preparedness in the Blood Bank  
      Alyse N. Gschwender, Laurie Gillard

258  Managing Massive Transfusions in diverse Patient Populations in a Non-Metropolitan Area  
      Shauna M.M. Sturgill, Laurie Gillard

263  Pathogen Reduction in Platelets: A Review of the Proposed Draft Guidance  
      Jocelyn Tracy
