RESEARCH AND REPORTS

207 Suppression of Antimicrobial Resistance in MRSA Using CRISPR-dCas9
   Karissa Wang, Matthew Nicholaou

214 Cinnamaldehyde Inhibits MRSA Biofilm Formation and Reduces Cell Viability
   Marco W. Rossi, Rita M. Heuertz

CLINICAL PRACTICE

219 Evaluating the Benefits of an Updated Blood Ordering Process
   Alana E. Sutherland

EDUCATION

224 Introducing Interprofessional Education to BSN and CLS Students Using a Simulated Healthcare Setting
   Kristina Jackson Behan, Jill Van Der Like

228 Promoting Patient Safety Through Interprofessional Education Simulation
   Katie Cavnar, Jill Van Der Like, Lela Hobby-Burns

233 Pride and Prejudice and Learning: An Interprofessional Experience with CLS and Nursing Students
   Kristina Jackson Behan, Kristen Coffey, Michele Promo, Teresa Brooks, Jill Van Der Like

240 Correlation of University Comprehensive and National Certification Exam Scores for Medical Laboratory Science Students
   Sarah B. Pelton

FOCUS: DISASTER PREPAREDNESS IN THE BLOOD BANK

247 Prepared for Anything: The Importance of a Safe and Available Blood Supply during Disasters and other Critical Events
   Laurie Gillard

250 Disaster Preparedness in the Blood Bank
   Alyse N. Gschwender, Laurie Gillard

258 Managing Massive Transfusions in diverse Patient Populations in a Non-Metropolitan Area
   Shauna M.M. Sturgill, Laurie Gillard

263 Pathogen Reduction in Platelets: A Review of the Proposed Draft Guidance
   Jocelyn Tracy
